

Levi DeMelle: POW search checklist

Findmypast: indexed POW searches, then POW Browse. Working order, not calculated probabilities. Move any register with convincing fellow-recruit matches to the front. Date checked: _____

1. Search names

- ☐ Search each surname alone, initially without dates, age or birthplace: **Demel, Demell, Demal, Demil, Demill, Demille, Demelle, Demmel, Dimmel, Demol, Demoll, Dumel, Dummel, De Mel, De Melle.**
- ☐ Try wildcards where accepted: **Dem*!*, D*mel*, Dim*!*, Dum*!***. If results are excessive, add forenames individually: **Levi, Lewen, Leven, Lewin, Levin, Liven, Lieven, Livin, Livinus, Louis, Lewis, Ludwig.** These include proposed search variants, not just documented spellings.
- ☐ Search fellow recruits below; start surname-only, then narrow by forename.

Done	Surname variants	Forename variants
☐	Dehlinder, Dehlander, Dehlunder, Deklunder, Deklinder	Jacob, Jacobus
☐	Demoll, Demol, Demel, Demell	Casimir, Kasimir
☐	Duvein, Duveine, Durein	Charles, Chas
☐	Briest, Biest, Brieft, Bieft	Thomas, Thom
☐	Degroote, De Groote, Degroot, Degroole	John, Jean, Johannes
☐	Dewinter, De Winter	Francis, Franz, Francois
☐	Degraff, De Graff, De Graaf, Degraaf	Heinrich, Henry, Henri

2. Inspect hits and scan discharge columns

- ☐ Inspect original images of plausible hits. Record **ADM reference, image/page, prisoner number, capture details, birthplace, age, discharge date and destination**, where supplied. Follow recorded prison transfers.
- ☐ Open **Leven Demangler's known entry in ADM 103/386**. Establish his actual discharge date/destination; inspect nearby entries and other discharges to the 60th. He is a different man from Levi.

Scan **all 1813 discharges**, especially military enlistments, **60th Regiment / 7th Battalion**, and recruiting-depot transfers. December 16 is a pay boundary, not an established enlistment date. Tick **Scan** after inspecting discharge columns; tick **Full** only after reading all relevant entries.

3. Compare, extend, then read fully

- ☐ Record every name in a promising discharge batch. Compare multiple names and dates with Levi's voucher-1 companions; **a date match or a total of 120 alone does not identify his draft**. One companion's register need not contain them all.
- ☐ Verify exact **Valleyfield, Greenlaw and Perth** references, dates and relevant alphabetical indexes; search next unless hits redirect the work. References: _____
- ☐ If unsuccessful, read priority volumes **line by line**, including unclear names, missing discharge details and non-regimental destinations. Age and birthplace are clues, not exclusion rules. Expand beyond this initial shortlist if necessary.

Search log: volume/collection + terms OR image range + result (continue on reverse).
